Experience

Notable Projects

Barclays Africa Group Limited | Absa Capital CIB (Corporate Investment Banking)

Promoted from Graduate program to join Corporate Technology from the development Trade Management Channel

Corporate Technology: UX Developer / Software Engineer

Trade Management Channel

Inspired by the Trade Loan: Smart Form, an entire channel was produced allowing customers to capture, amend and track their Guarantees, Letters of Credit and Trade Loan applications.

Angular 4
Springboot
Maven
OpenShift
ASP .NET Core
Webpack
Swift Messaging

Interface Design
User Testing
Information Architecture
Wire Frames

Design Workshops and end of sprint' demos with key stake holders

Barclays Africa Group Limited | Absa Retail and Business Banking

Rising Eagles Grad Program

CIB Digital: Front End Developer

Trade Loan: Smart Forms

The project was a digitization of an International Trade Loan application form. This would later influence the development of the Trade Management Channel.

Angular 2

Interface Design
Wire Frames

Won over difficult stake holder with a fast delivery and user friendly interface

Distribution Mobile Development Team: Junior iOS Developer

UI Testing

I supplied Automated UI test for the mobile application.

XCTest
Calabash
Cucumber

Vape Creators

Vape Creator App: Mobile UI/UX & iOS Developer

The vape store need a companion application to push engagement with their customer base. After gathering information about the clients - random and regular - it was shown that most used an iOS device. An companion application was designed and developed to assist customers with a product list and educational information about vaping.
